

# Specialty & Sports Nets

**Tennis**

**Discus**

Our specialty and sports netting works hard for any kind of sports application, including batting cages, driving range barriers, discus and shotput cages, backstops, wind screens, gym and court dividers. If sports are involved, safety should be, too. That's why our sports netting should be on every team. We also produce specialty netting of every description, from bird-controlling netting to theatrical/stage netting. We have the netting for whatever purpose you can think of.
