

Mezzanine Safety System

economical and simple to use fall protection

INCORD

The Manual MezzNet™ from InCord

- Economical and simple to use mezzanine safety system
- Easily operated from the floor by any employee
- Meets OSHA regulations for worker safety
- Protects workers from falling off mezzanines
- Allows full and unrestricted access to load area
- Easy to install, easy to use and very low maintenance
- Non-intrusive footprint (8") takes up very little space

Fall protection measures using InCord safety systems keeps everyone safe both above and below the work area.

The Manual MezzNet™ Safety System: The economical and simple solution for mezzanine safety.

Why is the InCord Manual MezzNet the best solution for your loading and unloading process? The manually operated MezzNet Safety System has very few moving parts and is easily operated by any employee on the floor. The lightweight sliding crossbar with pull rope makes the system easy to use with a simple hand-over hand action.

Protecting Your World
